WATER TAX

October 1 to 15, 1915

The following resolution is the vote of the village of Middlebury:

During the months of March and September the collector shall publish in the Middlebury Register and post in the postoffice a notice stating when and where he will receive the water tax. Fifteen days shall be allowed for the payment of said tax; at the expiration of that time the commissioners shall shut off the water from the premises of all persons whose tax is unpaid.

All such taxes that are not paid when time limit expires the above resolution will be enforced.

In compliance with the above vote I will be at the store of Taber & Duncan every week day from October 1 to 15 to receive said taxes. Office hours 9 a. m. to 12 and 2 to 6 p. m.

J. D. WOODS,
Collector for Water Commissioners.

COLLEGE NOTES.

Candidates are reporting regularly every afternoon at 2:30 for base ball practice, under the direction of Coach Holmes.

Schwarzwalder, '16, of East Orange, N. J., returned to college this week.

Chapman, '16, returned to college Tuesday.

The freshmen reception, planned for Wednesday evening, the 29th, has been postponed till later.

The Kappa Delta Rho fraternity is now eating at their fraternity house on at South street.

Miss Lewmina Rickert, who entered Middlebury college in the freshman class, was taken to her home in Barre Wednesday on account of sickness, her father accompanying her.

There was a meeting of the band yesterday afternoon at four o'clock in the old chapel. New men were asked to try out and the vacancies left by graduates will be filled by these.

Candidates for assistant manager of track are asked to hand in their names to Montgomery, Mason, or Paulson.

There will be a social Friday evening in the parlors of the Congregational church. Students of the college are cordially invited, and especially the Freshmen.

On account of the cold and windstorm Monday the base ball game between the juniors and sophomores was postponed till Saturday.

Coach Holmes is training a squad of cross country runners every afternoon. The following men have reported: Rodney, Hebard, Adkins, Osteyee, W. M. Smith, H. L. Smith, Lavinsky, Tetro, Jones, Hamilton, Bascom, Morgan, Peabody and Barnes.

The college boarding house, Hamlin Commons, is very well patronized this year. There are about sixty eating there and an excellent table is set. H. M. Davis, '17, is acting as cashier.

O'Neil, '19, has left college and returned to his home in Bridgeport, Conn. Douglass, '19, spent the 24th and 25th in Bristol. Leslie Shedd, '18, has returned to college from New Braintree, Mass. Miss Helen Sibley, '18, returned to Middlebury on the 25th from Hingham, Mass.

Attention should be called to the change in the college library schedule this year. Week days it is to be open from 8:30 a. m. till 9 p. m. and on Sundays from 2 to 5 in the afternoon. Last year the library was open only three nights a week, and it is thought that the increasing of the hours will prove a great benefit.

There has been considerable talk of starting a college training table at the college boarding house, Hamlin Commons. Such a table is common in all the larger colleges, and it is to be hoped that Middlebury will also have one, as it would be a valuable asset to her athletic department, and go far toward placing her on a level with some of the larger colleges.

Middlebury has every reason to feel encouraged at the football outlook. We have, Keefe, Bresnahan, Lamere and Lynch from last year's backfield, and Messenger and Sweetland, two new men, are also out for backfield positions. Sweetland played halfback last year on the Washington and Lee University team and was halfback on the All Southern team. Messenger was star halfback on the Haverhill High School team. The first scrimmage of the week was Wednesday night. At that time, with one or two new men in the line, the team appeared to be as strong as Middlebury has seen for some time.

The college fraternity rushing season opened Wednesday and is now in full sway. The rushing rules have been materially changed this year. The open season extends from September 29 to October 26, which is pledge day. The bids will be in uniform written form and shall be mailed to be delivered in the morning mail on pledge day. The freshmen shall mail their answers, whether they accept them or not, by the three o'clock mail of the same day. During the rushing season there shall be no social functions at which non-fraternity men are present in the fraternity houses. One fraternity is not allowed to have more than four non-fraternity men at a single meal, and no non-fraternity man shall be allowed to eat more than two meals a week with a fraternity.

On Friday, the 24th, the members of the freshmen class and the inter-fraternity council remained for a short time while President Thomas read and interpreted the rushing rules passed by the inter-fraternity council. A new plan for promoting competition and friendly rivalry between the two lower classes is to be tried this year. There will be a series of competitions between the two classes, a hat scrap, a tug of war, a gridiron rush, a track meet and a football game; in the winter a series of basketball games and in the spring a base ball game and track meet. Each event is credited to the winning class, and if at Junior week the freshmen are ahead they will be allowed to celebrate their victory by burning their caps with appropriate ceremonies. If the sophomores are ahead the burning of the freshmen caps will be postponed till the first of June.

When You Want a Thing Done RIGHT, Do it YOURSELF

Real tobacco flavor depends upon the leaf being preserved in its natural state, possible only by pressing the leaves into plug form and keeping it in by covering it with a natural leaf wrapper. The natural flavor and strength of tobacco escape when cut or granulated.

Take a Plug of Sickle that is even thoroughly dried out so that when you whittle it off it crumbles into dust, but it will burn and smoke smooth and cool as it has all of its original tobacco flavor preserved, unevaporated in Plug Form.

Whittling a pipeful is little trouble, amply repaid in both quality and quantity. Try this experiment and judge for yourself.
